pay taxes on their personal property.

The old adage that " nothing is certain in this world except death and taxes" has been temporarily discredited by the success of the Goulds in the matter of personal taxation. Indeed, it may be b said that, as a rule, among New York lionaires taxes are very uncertain.

The story of the conditions under which employment is given and ho ted at Pullman shows that the ounder of the city made a great mis-ake in his attempt to combine philan-

good times, but at the first touch of hard imes business squeezed philanthropy wholly out of the combination and left the workman poorer off than if he had ever been taken care of by paternalism It is a good rule that the great employers of labor should not have any ontrol over the domestic and persona freedom of their armies of wage

DANGER TO PASSENGERS.

Three accidents by collisions happened to excursion boats yesterday. The most serious was the case of the Starin Glen Island steamboat Glen, which was run into by a tug lashed to the side of a heavy freight-car transfer barge about 9 o'clock in the evening in midstream i short distance below the Brooklyn Bridge. There were about one hundred passengers on the Glen, and a panic pre-WORLD UPTOWN OFFICE-Junction of Bread- | valled among them, their position being evidently one of extreme peril. The damage to the Glen was great through the force of the collision, and she was wholly disabled. The tug C. P. Raymond, which was fortunately on hand,

And Every Little Soldier in It Is a Heart Disease Thought to Have Father Anthony Administers the Last Caused His Death.

> Patrick McCann, sixty-seven years old, or twenty-one years an engineer in the United States Navy, was found dead at s'clock this morning in the hallway at 438 West Fifty-eighth street, four doors from his home. He had been a sufferer from heart disease for years. It is supposed that he was stricken in the street, made an effort to get home, and mistock the hallway where he was found for his own, at 432 West Fifty-eighth street. At 12 o'clock McCann parted from some friends at Fifty-eighth street and

Last Friday Night.

Aged Mrs. Coyle and Mrs. Schuebba Also Sought For.

Three general alarms for three missing women were sent from Police Headquar-

The first was for Mrs. Angelina Luviglo, thirty years old, the wife of Difelicio Luvigio, a wealthy Italian carpen ter and contractor, of 20 Oak street, New Haven, Conn.

Luvigio, who is a fine-looking man, in the prime of life, went to Police Headask assistance to find his wife. He said that last Friday she received a postal card from her sister, Mrs. Philomena Serraro, of 24 Elizabeth street, this city, asking her to come at once to her as her little niece was critically ill. Mrs. Luvigio left immediately on the train due in this city late at night. Not hearing from her. Luvigio left his home on Monday to book for her. He learned that she had not gone to her sister's, her had the latter heart suvitions of that she had not gone to her siste nor had the latter heard anything her. Lavigio says his wife is a very handsome woman, and that when she left
home she was well dressed, and had
much valuable lewelry and quite a sum
of money with her. Their home life was
very happy, and they never had any
quarrels. They have one little girl.
Lavigio says he will repare no money
to find his wife. This afternoon he will
visit all the hospitals to see if she is an
invate.

since.

Mrs. Heidenig Schuebba, seventy-three years old, of 722 West Sixty-fifth street, is missing from her home since yesterday afternoon. Her daugnier, Mrs. Annie Wecker, of the same address, ways her mother is childish, and has no doubt wandered away somewhere. An alarm was also said out for her.

HEIGHT OF METEORS.

Vale Astronomers Hope to Establish It by a New Instrument.

(By Associated Press.) CLEVELAND, July 18.-A new astronomical instrument, termed a sextuple photographic telescope, has just been completed by Warner & Swazey, of this city, and is about to be shipped to New

observatories, and though intended for general astronomical photography, will begin the picture taking with the appear-ance of the August meteoric displays. It has six cameras, instead of one, and together they cover a field in the sky equal to that which would be occupied by 2.40 full muons.

by 240e full moons.
Single telescopes will be placed at distances of two miles from the sextuple instrument, and by means of electrical connections, photographs will be taken sinultaneously. The plates will then be compared, and calculations will be made with a view to establishing the height of meteors.

BANQUET IN A JAIL YARD.

Included please find 13 28 as the proceeds of a Sentenced Strikers the Chief Perfer held in One Bundred and Eighteenth street. sonages at a Unique Levec. sonages at a Unique Levee.

BRAZIL, Ind., July 18.-A most uniqu leves and banquet was held in the yard of the Sheriff of this county last night. More than five hundred citizens from inclosed you will find \$1, which two small Knightsville and the neighborhood ted from where the recent stoning to death of Barr, the Vandalia engineer, occurred came to bid farewell to the four young strikers who were recently connected with the nurder of the engineer. They are about ready to be taken to the State's prisor, at Jeffersonville to serve out a two-years' sentence of imprisonment. In-cream, cake and all the delirating of the senson were served. The prisoners were brought out from their cells in the tail into the Sheriff's yard and seated at the first table with their fathers, mothers, brothers, sisters and other relatives.

Becapes Being Buried Alive.

Those who in warm July are born; Thus will they be exempt and free From love's doubts and anxiety. The Acolian Harp.

Now hore some holes in a circle near what will be the upper side of the back firt five times as furiously as a of the box. Put the box into your one, says the London Lady's Pictors window and secure two bridges—just and no amount of height ever product like fiddle bridges one to each end, more dignity than a small woman of stretching across strings of fine catgut, assume on occasion. with the help of strong screwing pins, by comparison that everything is the Tung to one note. Then pull up your or thus, and so it is only when judg ash when the wind is making itself by the standard of some exceptions known, and the air passing over the tail sister that a short woman will p strings and through the holes will pro- mit herself to be so described. duce very charming and unexpected will always indignantly disclaim a bre sounds of music. Here is another and ity of inches under any circumstance wen more simple method. Take pieces though no woman ever yet objected the button-hole twist and thoroughly wax the epithet "little woman" used to

thrust the pegs down the crevices b tween the two sashes of your souther tern windows, stretching the st as tightly as possible. This second a very uncomplicated device is the mea of bringing you equally sweet sounds music as the first. The early Gree were the inventors of the acolian has and there were few Athenian garde without a tree among whose branch there was not not slung a harp far loned in the way I have done my be to describe.

Strawberry Ice.

Mash two quarts of strawberries w two pounds of sugar and let the mixto stand an hour or more. Squeeze in straining cloth, pressing out all Add an equal measure of wa and when half frozen add the bea three eggs to a quart.

Motherhood and Intellect.

Those who are opposed to the are fond of the argument that the h er education is too much of a strain the physical woman, and that it up her for her first and highest du-motherhood. In view of this assen-Mrs. Fawcett, of England, has for s time past been collecting the ph graphs of babies whose mothers have ceived university educations. This lection she has lately presented Newnham College, and it is said the more vigorous and healthy set of yo ones it would be hard to find. The sturdy little beings represent an ac condition and not a theory, so the who still object to chemistry and his mathemathics for their women for will have to move their guns to and

Green Gooseberry Ice. To a quart of gooseberries add hal pint of water and six ounces of sug cook till soft; add a pint of cream Tomato Jelly.

To make tomato jelly for salads, can of tomatoes, or, in tomato eight medium-sized tomat

skinned and stewed. Take also

fourth of a box of gelatine. Pass tomatoes through a sieve or strainer remove the seeds, &c. Scason with per and salt and then add the gelat dressing in the centre of the dish. Pansy Whist.

If you are searching for a variation card evenings try a "Pansy Whi party. Have tally cards in shape pansy blossoms, and have the pri rated with them. Green Goose and Green Appl

Truss and singe a young, fat go goose with a little thyme, salt and t er, fill up with apples, and roast done. Bake a few apples in the with the goose, and whin you are a to make the sauce from drippings, p pples through a sieve with sa Baste the goose often, but do not fork in the bird when turning. coipe is worth saving. Delicate groose, served in this style, only need

ouquet of celery, a roll, a bite of che and a swallow of black coffee to b teast fit for a gourmet To Test Nutmegs.

To test nutmegs prick them with pin, and if they are good the oil will stantly spread around the puncture The Summer Girl's Parasol A recent parasol caprice for y cirls is to have wrought in silver on handle a fac simile of its owner's ng of her Christian name. The lett is neither large nor conspicuous, but fancy cannot be considered in the of taste, since it calls public atter to a detail of personality which sh

be reserved for one's circle of inth

friends.

The Linen Zouase. A novelty in tennis sulting is linen otton duck, made with a pilgrim and zouave jacket and worn with nis belt, sailor hat, ascot scarf and
